## About the Dwight Stephenson Foundation

***One Goal. One Step at a Time.***  
***Building Communities and Changing Lives***

The Dwight Stephenson Foundation was founded in 2007 by NFL Hall of Famer, NFL 100 All-Time Team and former Miami Dolphin Dwight Stephenson and his wife Dinah Stephenson. In 2007, The Dwight Stephenson Foundation emerged as a 501 (C) (3) organization dedicated to serving the South Florida community and beyond.

The Foundation generates funding for Dwight's Computers for Kids Program now in its 24<sup>th</sup> year. The foundation also provides funding for a variety of worthwhile charitable organizations including United Cerebral Palsy, The Urban League of Broward County, The Boys and Girls Clubs and The American Diabetes Association, to name a few. After numerous years of lending his name and support to various charities, NFL Hall of Famer and former Miami Dolphin Dwight Stephenson realized his longtime vision of creating a charitable organization in his own name.

A successful businessman and owner of D. Stephenson Construction, Inc. in Ft. Lauderdale, Florida, Mr. Stephenson has successfully achieved his vision of combining his two passions – business and sports – to generate funds to further increase his support of charities that are near and dear to his heart. The Foundation leverages support from these two passions to create exciting events throughout the year, including The Foundation's signature event, The Dwight Stephenson Hall of Fame Golf Classic and now the Caymus Wine Dinner.

Together with The Dwight Stephenson Foundation Board of Directors and Special Event Committee members, the lives of children and families are being improved.

## About Cystic Fibrosis and the Foundation

### What is Cystic Fibrosis?

Cystic fibrosis (CF) is a life-threatening genetic disease that primarily affects the lungs and digestive system. An estimated 30,000 children and adults in the United States (70,000 worldwide) have CF. In people with CF, a defective gene and its protein product cause the body to produce unusually thick, sticky mucus that clogs the lungs and leads to life-threatening lung infections, and obstructs the pancreas and stops natural enzymes from helping the body break down food and absorb vital nutrients.

### About the Foundation...

The Cystic Fibrosis Foundation is the world's leader in the search for a cure for cystic fibrosis. We fund more CF research than any other organization, and nearly every CF drug available today was made possible because of Foundation support. The mission of the Cystic Fibrosis Foundation is to cure cystic fibrosis and to provide all people with the disease the opportunity to lead full, productive lives by funding research and drug development, promoting individualized treatment, and ensuring access to high-quality, specialized care. When the Foundation was established in 1955, children with CF rarely lived long enough to attend elementary school. Due in large part to the Foundation's aggressive investments in innovative research and comprehensive care, many people with the disease can now expect to live into their 30s, 40s and beyond.
